I.A.A.O President Bruce Woodzell, Assessor Lloyd Hara, and GIS IT Specialist Don Saxby

The King County Department of Assessment recently was awarded the [2011 International Association of Assessing Officers \(I.A.A.O\) Distinguished Assessment Jurisdiction Award](#) for being a national leader in the field of Assessment.

Our staff uses a variety of tools to establish property values, including on-site inspections comparable and comparison of property sales and evaluation of data, such as income for commercial properties.

Over the decades, the Assessor's Office has become a remarkable repository of the region's history. Historical photos, most of which are now located in the State Archives, show initial construction of virtually every home and building in King County.
